

My family and I have received at times as many as 4 calls a day from telemarketing companies. We feel this is a TOTAL INVASION of our privacy and would encourage you to leave the law as is it regarding this issue. We are totally capable of contacting any business we wish to do business at the time we choose; not over the phone at times the businesses know they can usually find consumers at home - at night and on weekends or sometimes very early in the morning. This is really frustrating.

AGAIN - PLEASE LEAVE THE LAW AS IT IS CURRENTLY.

Thank you.
